

Ways to Pray For the Alpha House Medical Clinic

“As for me, far be it from me that I should sin against the Lord by failing to pray
for you...”

1 Samuel 12:23

Please Pray:

- **Attraction:** that the Lord and His Holy Spirit would continue His Kingdom work by drawing abortion-minded women into Alpha House as a way to share the Gospel of Christ with them and save lives in the process
- **Love:** that every volunteer and every staff member be and remain clean, open channels of God’s agape love towards every person that walks into our doors and hears our message
- **Provision:** that the Lord would provide resources for this ministry and for our clients, that they would have safe places to live in and have food for their families
- **Hedges of Protection:** that the Lord would place a protective barrier around this place, that our Enemy cannot put obstacles, steal or destroy anyone involved in our service; and spiritual protection over our clients and those who work/volunteer here
- **Adoption:** that many clients would consider this as an attractive option, for the best future for their children

- **Hope:** that each client will see and hear the Hope of the Gospel message, and believe on the Lord Jesus Christ as their only hope of salvation and help
- **Omnipotence:** that the Lord’s power be revealed and evident to our volunteers, staff and clients
- **Unique:** that we will treat each client with compassion as a unique child of God, with a unique child inside
- **Safety:** for several of our clients, their “home” situations are not always safe; pray for their protection and willingness to utilize our resources to choose to leave situations that are harmful for themselves and their kids
- **Enlightenment:** that the Lord will give wisdom, discernment and enlightenment to each volunteer and staff member to

know what to say, what not to say, and how to say it; ability to recognize opportunities to show HIS love, grace and mercy.

LIFE: That every client that comes in for an ultrasound would be able to truly see LIFE in their bodies and desire to protect that LIFE!
